

# ARCHAEOLOGY

**New South Associates (NSA) archaeologists are able to identify and study archaeological sites as well as recover data ahead of construction projects, monitor sites, and prepare items for curation.**

## Our Services:

- Reconnaissance
- Phase I: Identification
- Phase II: NRHP Assessment / Evaluation
- Phase III: Data Recovery
- Site Monitoring
- Laboratory

NSA commonly assists with due diligence studies that planners and developers can use to make informed decisions early in project development providing substantial savings in time and money in the long term by identifying, considering, and even eliminating sensitive areas.
