

# HISTORY

Places, cultures, technologies, organizations, families, and individuals all have stories to tell.

New South Associates historians conduct research to create rich narratives. Our staff has researched buildings, structures, districts, sites, landscapes, and objects from different periods and in different places around the country.

## Our Services:

- Historical Research
- Oral History
- Land Use History
- Administrative History
- Historic Contexts
- Cultural Landscapes
- Ethnography & Tribal Consultation

One of the bedrock principles in CRM is the use of historic contexts to guide resource identification and evaluation. NSA is nationally recognized as a leader in the development and application of historic contexts.
